

An educational philosophy is a statement which in general terms describes the aims, purposes, and objectives which the Board of Directors (the Board) hopes to achieve. An educational philosophy helps create a framework which assists the Board and professional staff to make decisions on specific situations and assess programs. It also allows the members of the Idaho Arts Charter School to discharge their assigned duties with positive direction.

In turn, goal statements regarding the purposes and functions of the Idaho Arts Charter School can be developed from the framework of the educational philosophy.
